

# IBM Watson IOT platform and device

**TEAM ID:** PNT2022TMID52242

The screenshot displays the IBM Watson IoT Platform dashboard. The browser's address bar shows the URL `sg0eao.internetofthings.ibmcloud.com/dashboard/devices/browse`. The dashboard header includes the IBM Watson IoT Platform logo and a user profile section with the email `963219106302@emartinternz.com` and ID `sg0eao`. The main navigation bar has tabs for `Browse`, `Action`, `Device Types`, and `Interfaces`, with `Browse` currently selected. A sidebar on the left contains various icons for navigation. The main content area features a `Add Device` button and a section with `All Devices` and `Diagnose` tabs. Below this, a text block explains that the table shows a summary of all devices and can be filtered, organized, and searched. A search bar labeled `Search by Device ID` is present. The table below lists two devices:

	Device ID	Status	Device Type	Class ID	Date Added
>	b10012345	Disconnected	ultrasonicsensor	Device	26 Oct 2022 22:10
>	ultrasonicsensor_1	Connected	ultrasonicsensor	Device	1 Nov 2022 14:43

At the bottom of the table, it indicates `Items per page 50` and `1-2 of 2 items`. On the right side of the table, it shows `1 of 1 page` with navigation arrows. A status box at the bottom right of the table area indicates `2 Simulations running`. The Windows taskbar at the bottom shows the system clock as `10:03 07-11-2022` and the temperature as `85°F`.
